I am a smoker. I have been since I was a teenager. It used to be fashionable, now I often feel like an outcast. Regardless of what I tell myself, I know it's bad for my health and I probably spend far more money on cigarettes than I realise. I should quit. I really do want to stop but...I am addicted and escaping the habit is hard. How about a little help? This book offers a refreshing insight into the addiction of smoking. The good news is, quitting is far easier than most people think. If you've tried to stop before, the chances are you went head to head against, what you believed to be your problem, a nicotine addiction. Perhaps you tried taking nicotine in a different format. Think about it, that's like trying to quit an alcohol addiction by switching from whisky to gin! When trying to solve a problem, it is essential to know exactly what that problem is. Only then can a successful strategy be planned. If you are a smoker, you are not addicted to nicotine! You are addicted to smoking. This book lays out a straight forward plan that allows you to tackle your habit by showing you how to 'reprogramme' your brain. Within a few weeks anyone, no matter how long they have been smoking, can transition from smoker to non-smoker. Simply follow the book and the result is inevitable. Roken is een fuik, waar je, meestal als jongere, nietsvermoedend in zwemt. Te laat merk je dat je niet meer terug kunt. Alleen Carr laat zien hoe die fuik in elkaar zit, zodat je er moeiteloos uit kunt zwemmen. Hij gebruikt geen trucjes of hulpmiddelen. Carr ontfaelt slechts haarfijn de mechanismen die een roken doen roken. Wie dat eenmaal doorziet, merkt dat stoppen met roken heel eenvoudig is, vanaf de eerste dag. Bill Gates 'Iedereen zou dit boek moeten lezen.' de Volkskrant Op eenvoudige vragen over wereldwijde trends geven we systematisch de verkeerde antwoorden. In Feitenkennis legt hoogleraar Internationale Gezondheid en wereldfenomeen Hans Rosling uit waarom dit gebeurt. Hij presenteert daarbij tien redenen en komt zo met een radicaal nieuwe verklaring. Feitenkennis zit boordevol anekdotes, aangrijpende verhalen en Roslings kenmerkende grafieken. Het is een inspirerend, onthullend en essentieel boek dat de manier waarop je de wereld ziet compleet zal veranderen. Do you always say you'll start that diet . . . tomorrow? Do you stay up late watching television instead of going to bed? You are not alone. In fact, you belong to the 95 percent of the world that admits to procrastination. We are hardwired to procrastinate, and with so many new ways to distract ourselves in the digitized world, putting things off has never been easier. Using a mix of psychology, science, self-help advice, and his own research, Dr. Piers Steel—internationally recognized as the foremost authority on procrastination—dispels the myths and misunderstandings of motivation, replacing them with a clear explanation of why we put off until tomorrow what we should be doing today and providing cutting-edge techniques you need to get things done in the workplace and at home. This book provides time- and experience-proven advice for responding safely and effectively to threats to a law enforcement officer's safety. It relies on law enforcement's bloody history to reveal what has gone wrong for a very long time — and how to fix it so that no more cops die needlessly. This book identifies the cop killers and the fatal errors that cops make, and it explores how these incidents happen and why. Most important of all, the book goes into detail about how to prevent these terminal errors and furnishes to-the-point advice for avoiding them. These tactics and techniques work. It offers the same common sense advice that solid patrol sergeants have been sharing with their briefing room charges for a long while. It has been assembled by a police chief who spent 15 years as a sergeant. WHY COPS DIE can be used in a lot of ways, all of them useful for drastically reducing the number of officers who die on the job every year. It should be issued to every law enforcement academy recruit. It is aimed across the spectrum of the law enforcement organization from the rookie to the first-line supervisor to the command staff. Chiefs and sheriffs will find it of value, as will those directly responsible for the training of law enforcement officers. By applying practical, potentially lifesaving advice to their daily duties law enforcement's first-line practitioners can sharply reduce the number of peacekeepers who die or are maimed in the future. That effort begins here. Van populair weblog naar New York Times-bestseller is dit hét boek voor zelfhulphaters! Stop met altijd maar

Als je elke ochtend begint met het eten van een levende kikker, zal de rest van de dag 'een makkie' zijn (aldus Mark Twain). 'Eat that frog' laat zien hoe je die spreekwoordelijke kikker op kunt eten, oftewel hoe je moet beginnen met de taken waar je het minst zin in hebt. De taken die je voor je uitschuift blijken namelijk bijna zonder uitzondering de taken te zijn die de grootste, meest positieve impact op je leven zullen hebben. In deze klassieker over productiviteit legt Brian Tracy uit dat succesvolle mensen niet alles proberen te doen, maar focussen op de belangrijkste taken en zorgen dat die goed gedaan worden. Hij vertelt je hoe je voorkomt dat technologie je tijd domineert en geeft eenentwintig praktische en haalbare stappen die je helpen om te stoppen met uitstellen. En vandaag nog je leven te veranderen.

"A must read for all dog owners." —The Washington Post "The best key to what dogs are thinking." —The Seattle Times How to Speak Dog is one of the few books today that show us what dogs are trying to tell us, not just how we can control them. Parlez-vous Doggish? At long last, dogs will know just how smart their owners can be. By unlocking the secrets of the hidden language of dogs, psychologist Stanley Coren allows us into the doggy dialogue, or "Doggish," and makes effective communication a reality. Drawing on substantial research in animal behavior, evolutionary biology, and years of personal experience, Coren demonstrates that the average house dog can understand language at about the level of a two-year-old human. While actual conversation of the sort Lassie seemed capable of in Hollywood mythmaking remains forever out of reach, Coren shows us that a great deal of real communication is possible beyond the giving and obeying of commands. How to Speak Dog not only provides the sounds, words, actions, and movements with which we can effectively communicate with our dogs, but also deciphers the signs that our dogs give to us. With easy-to-follow tips on how humans can mimic the language dogs

use to talk with one another, original drawings illustrating the subtleties of their body language, and a handy visual glossary and “Doggish” phrasebook, *How to Speak Dog* gives dog lovers the skills they need to improve their relationships with their pets. Are you too stressed, anxious, or paralyzed to even get started? Are your perfectionist tendencies preventing you from the life you want? If you constantly feel like crumbling under the mountains of expectations placed on you by yourself and others, you've got a serious problem that is keeping you from happiness and fulfillment. Perfection is an illusion. Social media sells us the idea of perfection, and what, when and how should we achieve. This is enough to trigger a deep sense of inadequacy in us. Will we ever be enough? Perfectionism cripples the mind, kills creativity, and harms performance. -What are the main types of perfectionism? -Learn simple techniques to act confidently. -When can perfectionism be useful? -What signs indicate that you're a perfectionist? I'm a recovering perfectionist. As a teacher, I had to keep myself to high standards for the sake of my students. But this often came with sleepless nights and more stress than necessary. I have been studying the topic of perfectionism for many years. I summarized the best tips, practices, and stories I have learned along the way to ditch this unhealthy habit. While learning to overcome perfectionist instincts helps your life a lot, it won't solve all your problems in life. A perfectionism-free life is far from perfect but you won't mind having bumps in the road. You won't aim for a perfect life anymore. Rather enjoy what life has to offer, learn, and grow. Imagine a life where: -Your inner critic will stay silent. -You won't be fearful of taking action and failing. -You can jump into things without overanalyzing them. -You can be confident about your abilities without being terrified about the outcome? The Perfection Trap is a unique guide which will help you feel truly understood in your perfectionism problem (remember, I am a recovering perfectionist, too). It gives you a profound understanding of the pitfalls of this condition and recommends exercises that are easily doable and highly effective. After reading this book, overcoming perfectionism will be the only option you'll see, and you'll have all the stress-free tools to eat it. After all, the least I wish to convey is how to defeat perfectionism... perfectly. You are the creator of your own limits. You inject in your bloodstream those paralyzing expectations. Even the expectations of others are fabricated in your own mind most of the time. The Perfection Trap will help you how to overcome these unhealthy habits: -Discover your main reasons to pursue perfection and learn how to change these beliefs. -Learn to take risks. -Ditch your limiting, negative self-talk, once and for all. -Learn the best anti-procrastination techniques. -Learn to set realistic expectations and goals. -Find out about a set of special exercises to change your perfectionist habits. -Test your level of perfectionism. Don't let your unrealistic expectations ruin your personal and professional growth and happiness. Allow yourself the luxury of making mistakes. Learn. Laugh. Live. Mess things up, and then fix them. Embrace being a human who naturally errs. There is no shame in imperfection. But it's a shame to waste your life chasing the illusion of perfection. Become the Master of Discipline - Stop Procrastinating, Overcome Laziness and Finally Get Things Done! Are you sick of constantly procrastinating? Did you miss out on great things because you didn't feel like getting up? Do you feel like you'll never achieve your goals because you give in to laziness way too easily? If you want to stop all these in your life, then keep reading... Self discipline is the #1 achievement habit we must have in our lives. Whatever your dreams may be, to achieve them you need to possess mental strength and willpower. Successful people practice self discipline. They do what needs to be done, today. While most of us are aware of these facts, we find it hard to practice self discipline. Why? Being lazy is easier. Procrastinating is more fun. Habits are hard to shake off. Even if we know that our behavior is self-sabotage, we find it hard to stop. We listen to the emotional side of our brains than be responsible and rational. The worst thing is, this cycle of indulgent behavior reinforces itself every time we avoid doing something productive in favor of something more fun. You're not alone - the majority of people never develop self discipline. Even the author of this book used to just be a guy on the couch binge watching Netflix. He was living a life of chronic stress, because he was always late, always in a rush, barely getting anything done. Today, through a lot of pain and personal experience, he's learned how to master the art of self discipline. What if I told you there was a way to stop procrastinating, overcome

You Are Not In Control According to research, 99% of the thoughts, emotions and actions you had today are the same as the ones you had yesterday. We simply repeat things unconsciously. We think we're in control but we really are not. Our programming simply repeats things daily. You cannot fight this programming with willpower. You need to consciously reprogram it with new routines so that it works for you, rather than against you, in achieving your goals. External Results Are An Illusion. Change Yourself And Your External Results Change The default thing we try to do if we're not getting the external results we seek is to reach out and try to change the results, often without changing ourselves. Striving to create an external result that is not in alignment with who you currently are internally is really a case of chasing shadows. The reality is that the external world you see is simply a reflection of your state of consciousness. The only way to change your external world is to change yourself internally. So for the external changes you want to see in your life you need to first detail out the external goals, and then map them to internal changes you need to make in order to achieve them. With this shift in thinking, there is no need for you to get anxious about making external changes that are outside your control. You just need to focus on making the required internal changes as internal change is all within your control. Your External World Is Simply A Mirror Of You It can be difficult for you to really see yourself due to the multitude of smokescreens and the fact we humans are masters at self-deception. However an accurate way of seeing yourself is in your external circumstances. External reality acts as a mirror to enable us see what's really going on inside. This is good news because when you become aware of this law you realise all the power to change your reality lies within you. The reflection never lies, just as you cannot stand in front of a physical mirror and see a different person in your reflection. The law of correspondence is as real as gravity. Growth Is All That Matters Growth is what matters in life, not the material things we acquire. Material things can disappear in a flash but growth remains forever. If you don't try new things and deal with whatever learning curve is required then you don't grow. In This Book You'll Learn: The difference between the ego and consciousness and the role of the ego in shaping your life. How to use challenges in life as welcome tools to create a better version of yourself instead of seeing them as bad. How to use the Law of Correspondence which is always in operation in your life whether you're aware of it or not. How to transform yourself to the person who can automatically get the kind of results you want in life. How to use the power of delayed gratification to make your life easier. A step by step guide for how to create and instil positive habits and make them effortless within 30 days. How to increase your productive capacity so that you can get more done without necessarily working harder. How to use the power of giving to get the things you want in life. What to know more? Professor Piers Steel, zelf een notoire uitsteller, doet al ruim tien jaar onderzoek naar uitstelgedrag. Met humor ontrafelt hij de mythes over dit verschijnsel, bijvoorbeeld dat het aan iemands perfectionisme zou liggen. Helder en onderbouwd verklaart hij ons uitstellen, waarbij hij vooral het verband legt met impulsiviteit. Het slechte nieuws van Steel is dat uitstelgedrag een diepgewortelde gewoonte is, waar 95 procent van de bevolking aan lijdt. Het goede nieuws is dat we er ook van af kunnen komen. Hiervoor geeft Steel een rijk arsenaal aan beproefde technieken.
