Used in conjunction with CDX Automotive, students will demonstrate proficiency in engine performance fundamentals, diagnosis, service, and repair The 21st Millennium person uses a plenty of gadgets without caring to have the

complete knowledge of the usage options each provides, forget about construction and provisions. With the advent of the Smart Phones the Watch species was supposed to be extinct but it survived. Does our friend cares to understand how this gadget took birth, grew up and still surviving as a contemporary and to know in what all Avatars it is available? These two are the Starters and the Main Course is Self Care of Watches, if you care.From FOREWORD by BGD BNY has addressed this Book effectively to the Users of Watches of all kinds. It describes all types of Watches and how each type is constructed and works. This prepares the readers what to look for when buying a Watch. The heart of the Book is on SELF -CARE and Servicing of Watches, highly relevant to Users recommending them the daily and periodical upkeep. There are Glossary on watches/ FAQs making it value for money and a coffee table treasure. From FOREWORD by KY On retirement BNY took up to writing Books with this as first on Watches. It is a down to earth informative and useful to the Users of watches. He has used his vast technical experience in making the story simple. It provides the detailed menu available to the buyer to choose from, while buying Watches. Finally provided is the vital information on SELF-CARE of Watches which either most of the Users are not aware or often ignore if they know. He rings the Bell.From a PREVIEW by Mr Paramjit Lamba, Capacity Global, A Start Up Coach Great decision to buy this book! It's one of the most comprehensive ones in its class and will give you a 360 degree perspective. If you've ever wanted to know all about your watch, this is the right place to read about it. You'll discover a wide variety of watches which you may not have known before. BNY we knew, was a dumb n deaf QM Expert. Here he has become a story teller. He skilfully weaves the concept of time, horology, celestial bodies, in a warm story. Here, you'll discover how to decide which wrist watch you should buy for yourself. An ideal book for those who love their watches and like to take care of them like their babies. From a PREVIEW by Master Vishnu Arun (a 8th Grade Student)When I began reading the Book, of course it started like our text books by defining what is time, History of Watches etc. But as I proceeded, it was interesting to know how the time measurement methods and devices were developed over the ages. Next came the explanation about the inside mechanism which is totally new to my knowledge. It was very interesting to know about functioning mechanisms and how by adding some parts, the hand winding mechanical watch was modified into a self -winding Automatic Watch. Similarly, which functions are modified to get an Electronic Watch, which is called as a Quartz Watch. And a score of information as to what large number of options are available in buying Watches. The most practical aspect was on Self - Care about Watches, about the Daily upkeep by the wearer and the type of Watch servicing and how often it should be done etc. The Apple Watch Series 6 has several functions that help you stay active and give you better control over your health: functions like measuring blood oxygen, monitoring your heart rate, taking an ECG, detecting a fall and more. ; This user guide will help you navigate your Apple Watch optimally. We shall enter into the details necessary to the exact description of all the manipulations employed by the most celebrated watch makers, show the improvements which have been introduced in the manufacture of watches, mantel and belfry clocks, and chronometers, and describe the various tools which have recently been invented both for abrid gin g the mani pulations and rendering them more exact. We shall give valuable instructions in respect to repairing and regulating clocks and watches, and keeping them in order when they are thus regulated. These are very important, for excellent watches are often spoiled by inexperienced workmen to whom they are entrusted for repairs, or greatly injured by a want of care or knowledge on the part of their owners. We have endeavored to remedy this, by giving full and minute directions as to the care and management of time pieces, which cannot fail to be valuable to all who own them. We have also described the various escapements now in use, together with the most important gearings, and several useful tools which have lately been invented. The Manual is divided into chapters, in which we shall treat successively: first, of the manufacture of watches; second, of apartment clocks; and third, of belfry clocks; and in these we shall avoid describing any workmanship which is not approved by the best artisans.
