First Principles Feb 13 2020 This book chronicles the life of Keith Duckworth OBE, the remarkable engineer famous for being co-founder of Cosworth Engineering and creating the most successful F1 engine of all time, the DFV. Although the company's engines are given due prominence, this isn't an intricate technical examination of their design, but a more rounded look at the life and work of their designer – work which included significant contributions to aviation, motorcycling, and powerboating.

Lotus May 10 2022 From the Mark 1 in 1948 to the World's most powerful electric hypercar – the Evija – in 2021, the story of the Lotus marque encompasses ongoing technical innovation on road and track. With seventy-four F1 Grand Prix wins, six Drivers' and seven Constructors' F1 World Championships chalked up over seven hectic decades, Lotus consolidated its reputation in racing while at the same time creating some of the World's most stylish and desirable sportscars and Grand Tourers, in-house as well as for global automotive clients via its Lotus Engineering consultancy. With over 380 photographs, this book includes: the origins of the business, creating Austin 7-based competition cars; the metamorphosis from sports-racing cars to F1 – and seven World titles; factory relocations, from Hornsey to Cheshunt to Hethel; the road cars: the Elite, Elan, Europa, Excel, Esprit, Elise, Exige and Evora; how sponsorship transformed traditional British Racing Green into Gold Leaf and JPS livery. There are also interviews with key Lotus personnel and drivers.

DRIVEN Apr 09 2022 DRIVEN is John Aston's hugely entertaining motoring autobiography. This ambitious and far-ranging book begins with his early days as a teenage car enthusiast and race marshal in the late Sixties before covering the wide range of subjects close to his heart. These include the best and worst of Formula One, the icon that is Ferrari, the writer's NASCAR adventure, and the delights of long road trips in his beloved Caterham Seven. But that's not all, as you can read about why the NSU Ro80 was a prophet without honour, as well as what the writer thinks about the changing face of motoring journalism. Yes, one J Clarkson is mentioned ... And there's more still, as a major part of the book is a first-hand account of a year in British motorsport. The writer's love of the lesser known categories of motorsport illuminates the text, as does his insight into the places, people and machinery making up the sport's diversity. He describes the mood music of events ranging from a round of the British Touring Car Championship to historic race meetings for Cortinas and Minis, before venturing further from the mainstream with drag racing at Santa Pod, speed hillclimbs, autograss and rallying. Oh - he also doubled the average age at a Time Attack meeting. Don't expect objective reporting, as he holds strong opinions, but they are leavened by a tongue firmly lodged in his cheek. Any reader, enthusiast or not, is guaranteed to enjoy reading about these adventures as much as the writer enjoyed having them.

British Ford Cars of the 1960s and 1970s Jun 11 2022 The 1960s and 1970s were a pivotal period for Ford in Europe and, seen from a British perspective, were a time of experimentation and exploration. At the start of the 1960s Ford had models aimed at just two market sectors – small family saloons and large family saloons – but by the end of the 1970s they were represented in no fewer than five areas of the market with small hatchbacks, small saloons, medium saloons, sporty coupés and large saloons. And they had overtaken all rivals in Britain to be the best-selling manufacturer with (since 1967) the Cortina as the best-selling car. With over 270 photographs, this book details: the Ford company structure, businesses and key locations throughout the two decades; the factors influencing model design, engineering, styling and interior; specification and performance tables; market reception and sales; special editions, models produced overseas and conversions and finally, helpful buying advice for each model.

Design of Racing and High-Performance Engines 1998-2003 Sep 21 2020 The 53 technical papers in this book show the improvements and design techniques that researchers have applied to performance and racing engines. They provide an insight into what the engineers consider to be the top improvements needed to advance engine technology; and cover subjects such as: 1) Direct injection; 2) Valve spring advancements; 3) Turbocharging; 4) Variable valve control; 5) Combustion evaluation; and 5) New racing engines.

The New Encyclopedia of Motorcars, 1885 to the Present Dec 25 2020 More than two thousand black-and-white and full-color illustrations enhance an authoritative reference that lists virtually every make of passenger automobile offered for sale between 1885 and 1982

The Rover K-Series Engine Apr 16 2020 Getting a Rover K-Series engine properly up and running can be a difficult task, but ultimately the result is always worthwhile. Illustrated with over 300 photographs, Rover K-Series Engine - Maintenance, Repair and Modification is a practical guide to keeping these unique engines in fine working order. The most well-known issue with the K-Series is the head gasket, and this book demonstrates how to identify common faults, before giving practical advice on how best to solve them. Step-by-step guidance on all aspects of long-term engine maintenance is provided, in addition to the improvements required to prevent further problems. A K-Series engine is then stripped down to examine its clever and interesting structure, and is rebuilt with improvements. Authors of over twenty automotive books and countless articles in assorted motoring magazines, Iain Ayre and Rob Hawkins have combined their knowledge to bring you this book on the Rover K-Series engine, which is fully illustrated with 356 colour photographs.

Ginetta Dec 17 2022 Driven initially by Ivor Walklett's flair for design and desire to build his own car, the Ginetta marque quickly developed from a hobby into a business. The marque synonymous with the four Walklett brothers then grew from its humble roots to become a serious force in motor racing and a volume road car maker. Ginetta - Road and Track Cars traces the story of a marque born out of sheer enthusiasm for cars and racing. With over forty different models designed and built between 1958 and 2005 by Ginetta, this book examines every element of the design innovation, shrewd business management and model line-up that made Ginetta unique among its competitors, and includes the full development history and technical specifications of each major model. This comprehensive history of the Ginetta company from 1958 through to takeover in 2005 will be of great interest to all owners and enthusiasts of Ginetta cars and motoring history in general. Superbly illustrated with 209 colour and 87 black & white photographs.

The Complete Book of Collectible Cars Dec 13 2019

WOW! What a Life! Aug 13 2022 Preachers' children have the reputation of being wild and wayward, and I was no exception. Perhaps wilder and more rebellious than most. My life was a series of wonderful highs and life crunching lows, sometimes running in tandem, other times it happened simultaneously. It oscillated between utter piousness (the well-behaved, exemplary son of a preacher) and the empty life of a non-conformist rebel who mixed with the lowest of the low.

Cortina Nov 16 2022 In the 1960s the Cortina was an entirely new type of British car, light yet strong, cheap to buy yet roomy. It established a new class of car - the 'Cortina Class' - and Ford's rivals had to rush to compete. Not only was the Cortina the first, it was the best, too; a fascinating, ever-evolving project around which Ford-Europe's planning always revolved. Here, for the first time in a book, are all the facts, figures, images and legends of the Cortina story. With over 180 colour and black and white photos this is the fascinating story of an incredibly successful car.

Autopia Feb 07 2022 Cars are one of the most significant human creations. They changed our cities. They changed our lives. They changed everything. But in the next thirty years, this technology will itself change enormously. If Google get their way, are we all going to be ferried around in tiny electric bubble-cars? Or will we watch robots race a bionic Lewis Hamilton? And what about the future of classic cars? In Autopia, presenter of The Gadget Show and former executive producer of Top Gear Jon Bentley celebrates motoring's rich heritage and meets the engineers (and coders) who are transforming cars forever. From mobile hotel rooms to electric battery technology; from hydrogen-powered cars to jetpacks, Autopia is the essential guide to the future of our greatest invention. Fully designed with illustrations and photographs, this will be the perfect Christmas gift for car and technology enthusiasts everywhere.

How to Choose Camshafts and Time Them for Maximum Power Nov 04 2021 How to choose the right camshaft or camshafts for your individual application. Takes the mystery out of camshaft timing and tells you how to find optimum timing for maximum power.

Britain's Winning Formula Apr 28 2021 The international financial value of Grand Prix racing has grown substantially in recent years. This book will focus upon the massive size, value, importance and impact of the industry. It will also investigate the dominance of UK based Research and Development and design and the development of team strategy and tactics. The authors have based their analysis upon very up-to-date research involving interviews with key individuals at the highest level and visibility within the industry and focus upon the key management themes of teamworking, leadership, strategy and innovation.

Aussie Grit: My Formula One Journey Jan 14 2020 In his trademark straight-talking, no-nonsense style Mark Webber reveals his amazing life on and off the Formula One race track in Aussie Grit. Mark Webber was at the centre of one of the most captivating chapters in the history of Formula One. In 2010, while racing for Red Bull, he and his team mate Sebastian Vettel went head to head for the World Championship. There could only be one winner. Since retiring from Formula One Mark has concentrated on endurance racing, including the legendary Le Mans 24 Hour race. He hit the front pages of newspapers around the world in December 2014 when he slammed into the barricades in the final round of the FIA World Endurance Championship in South America, and was lucky to escape with his life. But the controversy of his relationship on and off the track with Vettel, who went on to win multiple world titles, has never been far beneath the surface. Here, for the first time, Webber tells the inside story of one of Formula One's most intriguing battles – it is a story that goes to the heart of why the sport is loved by millions of fans around the world. From his first taste of karting to his F1 debut in 2002, scoring Minardi's first points in three years at the Australian Grand Prix, through to his first win with Red Bull at the 2009 German Grand Prix and the year he should have been crowned World Champion. Mark Webber's journey to the top of Formula One was every bit as determined and committed as his racing. Aussie Grit is his searingly honest story. Includes a foreword by Formula One legend Sir Jackie Stewart.

Complete Book of Collectible Cars Mar 16 2020

Great British Cars Aug 21 2020 Great British Cars celebrates the cars commonly seen on the nation's roads during a golden age of motoring from the 1950s to the 1970s. Featuring 40 classic models such as the Ford Zephyr, Hillman Imp, Triumph Herald, Ford Capri, Vauxhall Viva and the Morris Minor 1000, this is a beautifully illustrated and nostalgic road trip back in time.

Rallye Sport Fords Jun 18 2020 The inside story of how Rallye Sport Fords were created by Ford in the 70s and 80s, enabling works' and private teams to be fully competitive in national and international rallies and races, to win many championships, and for RS cars to be bought by over 100,000 enthusiast customers! with around 200 photos and illustrations, many previously unpublished, this formerly untold story is brought vividly to life.

By Chance Mar 28 2021 'His first book 'Full Circle' was one of those reads you could not put down once you'd started it. Rick related stories and events through his life from being a cheeky-chappy looking for sponsors, dare-devil antics and serious scrapes on speedway bikes to FF1600's and beyond - into saloon cars. This book in contrast, details the racing career itself focussing inevitably on the diverse range of cars, serious competitive drivers of character and fame, Martin Down, a life long friend and car designer, as well as the race engineers and sponsors. It is a very easy read full of surprises and ... did I mention Tom Cruise?' - 'Russell Houchin, Sponsor and Friend

TVR 1946-1982 Feb 19 2023 This fascinating book tells the complete story of the early days of TVR, from Trevor Wilkinson establishing the company in 1946 through to the Martin Lilley years, which came to an end in 1982. The design and development of these classic British sports cars, with their defining characteristics of tubular backbone chassis and glass fibre bodywork, are described in detail. Illustrated with over 200

colour and black and white photographs the book covers all the early years, including the Sports Saloon, the Jomar, the Open Sports, TVR's first true production car the Grantura from 1958, Griffith models with their remarkable 289 cu in Ford V8 motors, the Vixen and Tuscan range of the late 1960s, the M Series models launched in 1972 and finally, the Tasmin range introduced in 1980. This essential reference work for all TVR owners and enthusiasts gives detailed descriptions of all models, full specification sheets, advice and guidance on owning and running a classic TVR and is superbly illustrated with 233 colour and 31 black & white photographs.

Auto-Universum May 18 2020

16,000 Miles to Mexico City Oct 23 2020 Imagine driving 16,000 miles in 25 days over some of the roughest terrain in the world, at altitudes up to 16,000 feet, where engines and lungs gasp for air. Imagine 500-mile speed trials over rocky mountain tracks, racing against the clock and 95 other cars. Imagine attempting this more than 50 years ago, without GPS or cell phones or modern safety equipment. In April 1970, 241 men and women from more than 20 nations did just that, setting out from London in cars ranging from a dune buggy to family sedans to Porsches, Rolls-Royces, camper vans and a Jeep Wagoneer, determined to get to Mexico City. Drawing on personal recollections of competitors, organizers, marshals and mechanics, this book recounts the ecstasies and agonies of perhaps the toughest endurance motorsports event ever--the London to Mexico World Cup Rally.

Why build a Seven? Putting a sports car on the road, a personal record. Oct 15 2022 Ever been forced to build your own car? THE SEVEN, the legendary Lotus sports car that first appeared in 1957 is still in production, as a kit. If you want one you must build it. The author sets out to build a Caterham Seven without first acquiring the needed skills. The fingertip ease of the digital age is replaced by unheated garages, fumes and typed instructions obscured by oily fingerprints. Between chapters a running history, illustrated with cartoons, tells the Seven's 50 year story using quotes from the many articles, test drives and books on the car. For anyone who has ever wanted to build something with their own hands - despite skill, aptitude and experience. Why build A Seven? Putting a sports car on the road.

The Motor Dec 05 2021

A to Z of Sports Cars, 1945-1990 May 30 2021 More than 1,000 photographs in b&w and color illustrate the extraordinary variety of sports cars that have been offered to the public. All the great names are featured, including cars from Israel, Egypt, Spain, Switzerland, Norway and Brazil.
