The vampires have been vanquished! Harry Keogh and the armies of the dead have destroyed the evil that once plagued the world. Nathan and Nestor, secret twin sons of the Necroscope and a proud gypsy woman, were children when their father, his humanity poisoned by his fearsome struggles, sacrificed himself to save mankind. Yet there are vampires still, vampires crueller and stranger than any the Necroscope had faced. When these new, merciless killers swoop out of the sky, Nathan and Nestor are men - but they have few of Harry Keogh's miraculous powers. Torn from each other by battle, the sons of the Necroscope journey across the vampire world, exploring its mysteries, each seeking the powerful, terrible vampires, his missing brother...and the woman they both love! How would you handle the self-exposing, idea-dizzying, life-shifting surprises that Randy White faced when he tried to live for Jesus in Fresno, California? He tells his story, describing how the city can be fertile soil where God can mentor you, test you and shape you into the image of Jesus. The first novel in the exciting Travellers series - a young adult fantasy story of survival against the odds in a fearful futuristic world. In a land called the Whykatto, south of the city of Orklun, the sun rises angry in the sky, eats the winter grass and flames towards the western horizon. As the sky turns fiery, figures appear in the landscape: a boy, limping, accompanied by an old woman. Cast out from their tribe they make the journey alone, away from the sun's rage, away from the deserts of the north, toward the southern lands. This is Ish's tale, a tale of rejection, of survival against the odds, of growing up in an age when much is feared, and few can be trusted. This book assesses EU-Japan security relations, examining how they have developed in individual security sectors and how they could be affected by international developments. The conclusions of the Economic Partnership Agreement and the Strategic Partnership Agreement in 2017 demonstrate the steady growth in EU-Japan political relations. Since the 1990s, dialogues between the EU and Japan have benefitted from extensive trade and investment ties and shared liberal values. Based on collaborative research by European and Japanese scholars, this book provides an in-depth, systematic and comparative analysis of the extent to which the EU and Japan have achieved concrete actions in the pursuance of security cooperation across a range of key areas such as nuclear proliferation, regional security, international terrorism, and energy and climate security. Further, it seeks to explain why some security sectors (such as economic and cybersecurity) have resulted in more extensive EU-Japan cooperation, while others lag behind (such as military and regional security). Common declarations and actions of shared interest and concerns have often led to only modest levels of security collaboration, and the book highlights factors that may be seen as intervening between intention and action, such as the role of external actors, for instance China and the US, and the constraints of internal EU and domestic Japanese politics. This book will be of much interest to students of European security, Japanese politics, diplomacy studies and international relations. She returns in turbulent midlife to trace the steps of six women who fled various sorts of trouble in nineteenth-century England and went to the United States to reinvent themselves. Her travel companions include Fanny Trollope, mother of Anthony and author of the biting Domestic Manners of the Americans; the actress Fanny Kemble, who shocked the nation with her passionate first-hand indictment of slavery; the prolifically pamphleteering economist Harriet Martineau; the homesteader Rebecca Burland, who had never been more than twelve miles from her Yorkshire village before she sailed to the New World; the traveller Isabella Bird, whose many ailments remained in check as long as she was scaling the Rockies; and the novelist Catherine Hubback, niece of Jane Austen, who deposited her husband in a madhouse and rode the brand-new rails to San Francisco. Tough-minded outsiders, these women's truest qualities emerged in a country as incomplete and tentative as their native land was staid and settled. And they discovered second acts for themselves at a time when the world expected them to disappear politely. From the swampy heat of Georgia's Sea Islands to the icy purity of the Cascades, Sara Wheeler finds their path, and her own. Why did this have to happen? Karly thought to herself.
