Christians are not above fear, guilt, and grief. Whenever we are faced with fear and grief, we can sometimes take matters into our own hands and use man's knowledge and wisdom to control things. When this occurs, we can find ourselves leaning on our own understanding and not on faith. Tom Nottingham allows the fear of losing his business to become his priority, resulting in the neglect of his family. Following a dreadful accident where his family dies, he is weighed down by grief and guilt until it consumes his energy. He goes deep into his grief, slips into a self-made cocoon of depression, loses touch with his emotions, and is no longer stirred by anything. He becomes like a dead man walking. When Robert Montgomery, a Good Samaritan, comes into the situation, it is a challenge for him to breach Tom's cocoon. Through some divinely appointed circumstances, Robert receives wisdom regarding how to break through to Tom. Along with a cast of characters all working to help Tom, God is enabled to do an incredible work of healing as he did with King Nebuchadnezzar! In this almost documentary account of his own experiences of penal servitude in Serbia, Dostoevsky describes the physical and mental suffering of the convicts, the squalor and the degradation, in relentless detail. The intricate procedure whereby the men strip for the bath without removing their ten-pound leg-fetters is an extraordinary tour de force, compared by Turgenev to passages from Dante's Inferno. Terror and resignation - the rampages of a psychopath, the brief serenity interlude of Christmas Day - are evoked by Dostoevsky, writing several years after his release, with a strikingly uncharacteristic detachment. For this reason, House of the Dead is certainly the least Dostoevskian of his works, yet, paradoxically, it ranks among his great masterpieces. What will our resurrected bodies look like? Will we be young or old? Marked by the physical imperfections of our earthly lives? Does this flesh we carry now rise or is it something other? What does our modern knowledge of the world contribute to our understanding? Brian Schmisek traces developments in the Christian understanding of resurrection, explores the topic in light of biblical data, and mines scientific insights. What results is a synthesis that expresses the essence of the apostolic kerygma in modern terms. Schmisek's impressive combination of solid theological and biblical scholarship with an accessible and welcoming style makes this book an excellent resource for adult education groups, deacon formation classes, undergraduates, and other nonspecialists. 'Here was the house of the living dead, a life like none other upon earth' In January 1850 Dostoyevsky was sent to a remote Siberian prison camp for his part in a political conspiracy. The four years he spent there, startlingly re-created in The House of the Dead, were the most agonizing of his life. In this fictionalized account he recounts his soul-destroying

incarceration through the cool, detached tones of his narrator, Aleksandr Petrovich Goryanchikov: the daily battle for survival, the wooden plank beds, the cabbage soup swimming with cockroaches, his strange 'family' of boastful, ugly, cruel convicts. Yet *The House of the Dead* is far more than a work of documentary realism: it is also a powerful novel of redemption, describing one man's spiritual and moral death and the miracle of his gradual reawakening. This edition includes notes and an introduction discussing the circumstances of Dostoyevsky's imprisonment, the origins of the novel in his prison writings, and the character of Aleksandr Petrovich. An NBA sports star and cultural icon discusses his catastrophic spinal collapse in 2007, the excruciating pain he suffered and his slow recovery, as well as his childhood, sports career, and the political and cultural upheaval of the 1960s. Captain Deadalus gathers together a group of deadly renegades and rebels against the Empire, the power that seeks to gain control of the galaxy The 1983 Lamont poetry selection of the Academy of American Poets. *The Dead and the Living* presents a beautifully realized cycle of poems beginning with those that honor the dead, then poems that burrow into childhood, limning the uncomfortable; and culminating in poems for the living, moving outward toward love, marriage, children, toward "the tasting, and the giving of life." Larry Lewis says, "The Dead and the Living is an unignorable book, something truly rare. The feeling behind it is painful, but exquisitely so. Pain made into art or what, in another time, people called 'beauty.'" It is an achievement of a poet writing in the full measure of her powers. Master translation of a neglected Russian classic into English Long before Solzhenitsyn's *Gulag Archipelago* came Dostoevsky's *Notes from the House of the Dead*, a compelling account of the horrific conditions in Siberian labor camps. First published in 1861, this novel, based on Dostoevsky's own experience as a political prisoner, is a forerunner of his famous novels *Crime and Punishment* and *The Brothers Karamazov*. The characters and situations that Dostoevsky encountered in prison were so violent and extraordinary that they changed his psyche profoundly. Through that experience, he later said, he was resurrected into a new spiritual condition -- one in which he would create some of the greatest novels ever written. Including an illuminating introduction by James Scanlan on Dostoevsky's prison years, this totally new translation by Boris Jakim captures Dostoevsky's semi-autobiographical narrative -- at times coarse, at times intensely emotional, at times philosophical -- in rich American English. Bridging the gap between spirituality and the recovering community, Rising from the Dead: Stories of Women's Spiritual Journeys to Sobriety tells the stories of alcoholic women in long-term sobriety whose faith-based rehabilitation healed and transformed their lives. Using the format adopted by Alcoholics Anonymous in telling their stories, each woman tells "how it was, what happened, and how it is now." Their stories are first examined within the more secular models of treatment, and then in relation to theological categories and models. Illustrating the catastrophic nature of alcoholism as well as the hopeful path to recovery, this book offers a practical and valuable guide for professionals working in the Christian community to assist women suffering from addiction. Rising from the Dead describes the 12-step spiritual approach to treating addiction, and offers strategies for strengthening and developing the spiritual lives of those afflicted with this burden. This book examines the use of stories from a therapeutic and Christian perspective, and suggests models for therapeutic listening and counseling. It also covers narrative construction, issues with shame and guilt, threshold experiences, God language, and much more. An indispensable book on healing through communities of faith, Rising from the Dead: Stories of Women's Spiritual Journeys to Sobriety is ideal for pastors, pastoral counselors, chaplains, parish nurses, and seminary faculty teaching in the area of addiction ministry. Beware, the Dead are coming back! This is a unique and fascinating collection of early mummy stories that helped to establish the chilling concept of the Dead returning to life as a potent sub-genre of horror fiction. The main feature on the mummy bill, 'The Jewel of the Seven Stars' by Bram Stoker, is generally regarded as his best work after Dracula. A weird mixture of adventure, the supernatural and science fiction is found in Jane Webb's 'The Mummy', a tale written in 1827 but set in 2126. 'Some Words with a Mummy' is by the great horror writer Edgar Allen Poe. Arthur Conan Doyle's 'The Ring of Thoth' is the classic mummy tale and was the basis for the 1932 movie 'The Mummy' starring Boris Karloff and, indeed most mummy films ever since. 'Lot 249', another Doyle chiller, completes this collection, which is guaranteed to entertain and possibly prompt a nightmare. In the fall semester of 1995 Professor Donahue and Chief Biggs investigated the murder of

Dean Wooda. The surprising result became stranger as new bodies and new suspicions appeared each semester. By 1997 even those who had seen the dean's corpse off for cremation were wondering when his ghost would cease to haunt the drafty halls of Briarpatch College's oversized Administration building. At the same time all the now-familiar idiocies of American higher education in the Nineties were loose on campus. Everything that happens only once or even rarely elsewhere happened all the time at Briarpatch. As the college at the bottom of the US News ratings (a quasi-popularity poll that was taken seriously at the time), something had to be done to improve Briarpatch's academic reputation. If you've ever attended a small college, you know Briarpatch; if you haven't, you should have for those who do not become part of a murder investigation, a small college is a great place to get an education, or to teach, or even to be a dean. When Ella is mysteriously attacked on her way home from a party, her entire life changes as she finds herself at the center of an attempted murder investigation. Ella tries to move on, but her attacker isn't done yet. He shows himself in the form of horrifying signs and symbols: a clown mask strewn on her bed, a dead bird in her backpack, a shadow moving past her window in the night. And as the weeks pass, it turns out that Ella isn't the only one being tormented. With the help of an old flame, Jensen Carver, and her friends and family, Ella tries to attain some sense of normalcy, but she can't seem to shake the feeling that there's a dark pattern hidden in the killer's every move. Suddenly, even those in her innermost circle seem suspicious. In her seemingly safe West Virginia town, Ella starts to wonder who she can trust How can a respected scientist believe in the resurrection? Can I trust the Bible's account that Jesus actually rose from the dead? If the resurrection really occurred, of what importance is it to you and me? Our ready embrace of the authority of science has left many doubting that Jesus's resurrection was a verifiable, historical event. Yet Thomas Miller, an experienced scientist and well-respected surgeon, challenges the notion that modern medicine has disproved the possibility of the resurrection. Through careful investigation of the evidence and evaluation of its reliability, Dr. Miller demonstrates that science and religion are not incompatible and makes a compelling case for the reality of the resurrection. From the author of *Fire and Fortitude* and *Island Infernos*, a white-knuckle account of the 1st Infantry Division's harrowing D-Day assault on the eastern sector of Omaha Beach—acclaimed historian John C. McManus has written a gripping history that will stand as the last word on this titanic World War II battle. Nicknamed the Big Red One, 1st Division had fought from North Africa to Sicily, earning a reputation as stalwart warriors on the front lines and rabble-rousers in the rear. Yet on D-Day, these jaded combat veterans melded with fresh-faced replacements to accomplish one of the most challenging and deadly missions ever. As the men hit the beach, their equipment destroyed or washed away, soldiers cut down by the dozens, courageous heroes emerged: men such as Sergeant Raymond Strojny, who grabbed a bazooka and engaged in a death duel with a fortified German antitank gun; T/5 Joe Pinder, a former minor-league pitcher who braved enemy fire to save a vital radio; Lieutenant John Spalding, a former sportswriter, and Sergeant Phil Streczyk, a truck driver, who together demolished a German strong point overlooking Easy Red, where hundreds of Americans had landed. Along the way, McManus explores the Gap Assault Team engineers who dealt with the extensive mines and obstacles, suffering nearly a fifty percent casualty rate; highlights officers such as Brigadier General Willard Wyman and Colonel George Taylor, who led the way to victory; and punctures scores of myths surrounding this long-misunderstood battle. *The Dead and Those About to Die* draws on a rich array of new or recently unearthed sources, including interviews with veterans. The result is history at its finest, the unforgettable story of the Big Red One's nineteen hours of hell—and their ultimate triumph—on June 6, 1944. China's party-run courts have one of the highest conviction rates in the world, with forced confessions remaining a central feature. Despite recent prohibitions on evidence obtained through coercion or torture, forced confessions continue to undermine the Chinese judicial system. Recounting some harrowing cases of wrongful conviction, acclaimed legal scholar and novelist He Jiahong analyzes many problems in China's justice system. In one such case, Teng Xingshan was convicted in 1988 and later executed for murdering his mistress, but almost six years later it was discovered that the supposed victim, Shi Xiaorong, was still alive. In 2005, Teng's children submitted a complaint to the Hunan High People's Court, which then issued a revised judgment. In another case, She Xianglin was convicted of murdering his wife in 1994 and was sentenced to death, but this sentence was later commuted to fifteen years' imprisonment. In 2005, She's wife, presumed dead for over eleven years, "returned to life"; She was released from prison two weeks later, retried and found not guilty. With riveting examples, the author surveys the organization and procedure of criminal investigation, the lawyering system for criminal defense, the public prosecution system, trial proceedings, as well as criminal punishments and appeals. In doing so, He highlights the frequent causes of

wrongful convictions: investigators working from forced confessions to evidence; improperly tight deadlines for solving criminal cases; prejudicial collection of evidence; misinterpretation of scientific evidence; continued use of torture to extract confessions; bowing to public opinion; nominal checks among the police, prosecutors and the courts; the dysfunction of courtroom trials; unlawfully extended custody with tunnel vision; and reduced sentencing in cases of doubt. The author also provides updated information about recent changes and reforms as well as the many continuing challenges of the criminal justice system in China. "[This] is the most important question regarding the claims of the Christian faith. Certainly no question in modern religious history demands more attention or interest, as witnessed by the vast body of literature dealing with the Resurrection. James I. Packer says it well in his response to this debate: "'When Christians are asked to make good their claim that this scheme is truth, they point to Jesus' resurrection. The Easter event, so they affirm, demonstrated Jesus' deity; validated his teaching; attested to the completion of his work of atonement for sin; confirms his present cosmic dominion and coming reappearance as Judge; assures us that his personal pardon, presence, and power in people's lives today is fact; and guarantees each believer's own reembodiment by Resurrection in the world to come.'" "The Apostle Paul considered the Resurrection to be the cornerstone of the Christian faith. If Jesus did not rise from the dead, the whole structure, Christianity, collapses. Paul tells us in 1 Corinthians 15:14-17, 'And if Christ has not been raised, 'our preaching is useless and so is you faith.' More than that, we are then found to be false witnesses about God. . . . And if Christ has not been raised, your faith is futile [emphasis added].' The Christian faith-and its claim to be Truth-exists only if Jesus rose from the dead. The heart of Christianity is a living Christ."
