Waarom hebben getalenteerde mensen vaak moeite om hun doelen te bereiken terwijl minder begaafde individuen soms zonder slag of stoot verbazingwekkende prestaties leveren? Op basis van haar eigen verhaal als dochter van een wetenschapper die zich vaak beklaagde over haar vermeende gebrek aan intelligentie, beschrijft Angela Duckworth haar loopbaan door het onderwijs, de consultancybusiness en de neurowetenschap. Het leidde tot de hypothese dat werkelijk succes vooral ontstaat door een speciale mix van volledige overgave en de vastberadenheid om te werken aan je langetermijndoelen: grit. In dit boek doet Duckworth, winnaar van de prestigieuze MacArthur Genius Award, haar theorie uit de doeken en helpt ze iedereen om aan de hand van zes kernwaarden hun eigen grit-factor te bepalen: hoop, inspanning, precisie, passie, rituelen en prioriteiten. Grit gaat voorbij aan clichés als 'succes is vooral hard werken' en biedt een frisse en motiverende manier om zelf ongekende resultaten te behalen. Het is Jacks verjaardag, hij wordt al vijf. Jack leeft met Mam in Kamer, waarvan de deur op slot zit. Kamer heeft alleen een dakraam en is elf vierkante meter groot. Jack is dol op televisiekijken; Dora de Explorer is zijn vriendin, maar hij weet dat wat hij op televisie ziet niet echt is. Alleen hijzelf is echt, en Mam, en de dingen in Kamer. En Ouwe Nick die 's nachts vaak komt. Dan zit Jack in de kast en kraakt het bed. Op een dag vertelt Mam hem dat er buiten Kamer ook een echte wereld is. Een wereld waarmee Jack na hun ontsnapping zal kennismaken. Kamer is een beklemmende en fascinerende roman die je nooit meer vergeet. Verfilmd als 'Room'. Written by a hazardous materials consultant with over 40 years of experience in emergency services, the five-volume Hazmatology: The Science of Hazardous Materials suggests a new approach dealing with the most common aspects of hazardous materials, containers, and the affected environment. It focuses on innovations in decontamination, monitoring instruments, and personal protective equipment in a scientific way, utilizing common sense, and takes a risk-benefit approach to hazardous material response. This set provides the reader with a hazardous materials "Tool Box" and a guide for learning which tools to use under what circumstances. Volume Five, Hazmat Team Spotlight, covers hazardous materials teams across the United States. Levels of response vary between urban and rural areas, as do resources. This volume covers the history, vehicles, types of response, equipment, and resources, as well as procedures and innovations across different teams nationwide. FEATURES Presents geographical and historical background of departments and hazmat teams Includes department organization and resources Provides an exploration of selected, specific department case studies nationwide Outlines basic operation procedures Highlights resources, training, and hazmat exposures, both transportation and fixed De werknemers van een belastingkantoor in Peoria, Illinois, komen in eerste instantie redelijk normaal over op David Wallace. Als tijdelijke kracht maakt hij zijn entree op een moment dat de directie hun ook het laatste greintje menselijke waardigheid dat het werk te bieden heeft wil afnemen. Wanneer hij zich met de moed der wanhoop onderdompelt in de geestdodende routine ontdekt hij met welke uitzonderlijke persoonlijkheden hij op kantoor zit. De bleke koning was nog niet voltooid toen David Foster Wallace overleed. Het is een originele, hilarische en onverschrokken roman, die belangrijke vragen aansnijdt door middel van krachtige personages. De bleke koning dwingt in alle opzichten grote bewondering af. Introduction To SPACES SPACES is a portable, lightweight battery charger and DC power distribution system designed to operate using various sources of DC input power including renewable solar energy. - Using INPUT cables selected by the user, SPACES accepts INPUT DC power in several ways including solar power input, vehicle DC power input, or batteries. - Using optional OUTPUT cables selected by the user, SPACES can function as a battery charger or can directly power 12/24 volt battery operated weapon system. - SPACES is capable of energizing many different types of systems including the AN/PRC-117, AN/PRC-150, AN/PRC-152 radios, Tough Book computers, low wattage AC powered devices and charge BB-2590/U and other batteries. SPACES can also be used as a Power Distribution device enabling the user to transfer energy between different battery types (see page 49). Introduction To Guide to Employing Renewable Energy and Energy Efficient Technologies 1. PURPOSE: This X-File gathers, organizes and synthesizes knowledge gleaned by the Marine Corps Warfighting Laboratory utilizing lessons learned from the Experimental Forward Operating Base (ExFOB) process, and from limited experimentation, pre-deployment training and post deployment reports. It is in a format that can be quickly read and easily transported—in the cargo pocket of the utility uniform—so easy-to-use information is immediately available to all levels of command. 2. SCOPE. This X-File consolidates knowledge on technologies that were evaluated during the ExFOB process in close cooperation with the Commandant's Expeditionary Energy Office (E2O). These technologies have proven to reduce the logistic footprint of Marines operating from austere operating locations in Afghanistan. a. All of the systems described in here can be found in open access sources. b. We have outlined the capabilities of the technology and clarified how it could be employed. c. We do not replace any Government-issued Technical Manuals nor is this knowledge intended to replace any existing tactical warfighting fundamentals. d. Our goal is to optimize potential use of the technologies in conjunction with established Marine Corps doctrine, orders, and higher level policy guidance. 3. HANDLING INSTRUCTIONS. This X-File is approved for public release; distribution unlimited. The story of a remarkable girl who followed her dream and conquered the world. On 15 May 2010, after 210 days at sea and 24,285 nautical miles, 16-year-old Jessica Watson sailed her yacht, Ella's Pink Lady, triumphantly back into Sydney Harbour. She had become the youngest person to sail solo, unassisted and non-stop around the world. Told in Jessica's own words, this fully updated edition of True Spirit shares with the reader her childhood, her inspiration, her years of planning and what has happened since she conquered the Everest of sailing. It is an inspiring story, one that ultimately proves that we all have the power to live our dreams – no matter how small or big they are. Een huisje op het platteland komt langzamerhand in het centrum van een grote stad vol stof en rook te liggen. Gelukkig kan het huisje naar buiten verhuizen waar het de wisseling der seizoenen weer kan beleven. Prentenboek met illustraties in kleur. Vanaf ca. 4 jaar. In Big Magic moedigt Elizabeth Gilbert ons aan om onze verborgen talenten te ontdekken. Balancerend tussen spiritualiteit en vrolijk pragmatisme laat ze zien hoe we onze ideeën kunnen omarmen, nieuwe uitdagingen het hoofd kunnen bieden en onze dagen kunnen vullen met meer passie en mindfulness. Op weg naar het leven waar je altijd van hebt gedroomd. For more than 20 years, Network World has been the premier provider of information, intelligence and insight for network and IT executives responsible for the digital nervous systems of large organizations. Readers are responsible for designing, implementing and managing the voice, data and video systems their companies use to support everything from business critical applications to employee collaboration and electronic commerce. Inleiding in het programmeren, bestemd voor programmeurs. For more than 20 years, Network World has been the premier provider of information, intelligence and insight for network and IT executives responsible for the digital nervous systems of large organizations. Readers are responsible for designing, implementing and managing the voice, data and video systems their companies use to support everything from business critical applications to employee collaboration and electronic commerce. Gifty is een briljante studente neurowetenschap aan de universiteit van Stanford. Haar drijfveer is de fatale overdosis van haar broer, verslaafd aan pijnstillers, en de depressie van haar moeder. Gifty is vastberaden om de wetenschappelijke oorzaak te vinden van al het verdriet en lijden dat haar leven domineert. Dan zet een telefoontje haar eenzame leven in haar laboratorium volledig op zijn kop. Haar moeder wil zelfmoord plegen en ten einde raad neemt Gifty haar in huis. Het brengt haar weer terug naar het geloof dat zoveel houvast gaf in haar jeugd. De kerk waar ze in opgroeide beloofde verlossing, maar gaf nooit duidelijkheid hoe die te bereiken. Terwijl haar moeder in bed blijft liggen worstelt Gifty tussen geloof en wetenschap, en zoekt naar een manier om haar liefde voor haar familie in daden om te zetten. Verheven koninkrijk is een ontroerend portret van een Ghanees immigrantengezin in de vs dat zucht onder het juk van verdriet, depressie en verslaving. Het is een wonderschoon geschreven en emotioneel zeer beladen opvolger van het fenomenale Weg naar huis, en is de meesterproef van het literaire talent Yaa Gyasi. Issues for Jan 12, 1888-Jan. 1889 include monthly "Magazine supplement". Vols. for include an annual directory issue. Over 5,300 total pages MARINE RECON Reconnaissance units are the commander's eyes and ears on the battlefield. They are task organized as a highly trained six man team capable of conducting specific missions behind enemy lines. Employed as part of the Marine Air- Ground Task Force, reconnaissance teams provide timely information to the supported commander to shape and influence the battlefield. The varying types of missions a Reconnaissance team conduct depends on how deep in the battle space they are operating. Division Reconnaissance units support the close and distant battlespace, while Force Reconnaissance units conduct deep reconnaissance in support of a landing force. Common missions include, but are not limited to: Plan, coordinate, and conduct amphibious-ground reconnaissance and surveillance to observe, identify, and report enemy activity, and collect other information of military significance. Conduct specialized surveying to include: underwater reconnaissance and/or demolitions, beach permeability and topography, routes, bridges, structures, urban/rural areas, helicopter landing zones (LZ), parachute drop zones (DZ), aircraft forward operating sites, and mechanized reconnaissance missions. When properly task organized with other forces, equipment or personnel, assist in specialized engineer, radio, and other special reconnaissance missions. Infiltrate mission areas by necessary means to include: surface, subsurface and airborne operations. Conduct Initial Terminal Guidance (ITG) for helicopters, landing craft, parachutists, air-delivery, and re-supply. Designate and engage selected targets with organic weapons and force fires to support battlespace shaping. This includes designation and terminal guidance of precision-guided munitions. Conduct post-strike reconnaissance to determine and report battle damage assessment on a specified target or area. Conduct limited scale raids and ambushes. Just a SAMPLE of the included publications: BASIC RECONNAISSANCE COURSE PREPARATION GUIDE RECONNAISSANCE (RECON) TRAINING AND READINESS (T&R) MANUAL RECONNAISSANCE REPORTS GUIDE GROUND RECONNAISSANCE OPERATIONS GROUND COMBAT OPERATIONS Supporting Arms Observer, Spotter and Controller DEEP AIR SUPPORT SCOUTING AND PATROLLING Civil Affairs Tactics, Techniques, and Procedures MAGTF Intelligence Production and Analysis Counterintelligence Close Air Support Military Operations on Urbanized Terrain (MOUT) Convoy Operations Handbook TRAINING SUPPORT PACKAGE FOR: CONVOY SURVIVABILITY Convoy Operations Battle Book Tactics, Techniques, and Procedures for Training, Planning and Executing Convoy Operations Urban Attacks Backpacker brings the outdoors straight to the reader's doorstep, inspiring and enabling them to go more places and enjoy nature more often. The authority on active adventure, Backpacker is the world's first GPS-enabled magazine, and the only magazine whose editors personally test the hiking trails, camping gear, and survival tips they publish. Backpacker's Editors' Choice Awards, an industry honor recognizing design, feature and product innovation, has become the gold standard against which all other outdoor-industry awards are measured. This updated Second Edition covers current state-of-the-art technology and instrumentation The Second Edition of this well-respected publication provides updated coverage of basic nondestructive testing (NDT) principles for currently recognized NDT methods. The book provides information to help students and NDT personnel qualify for Levels I, II, and III certification in the NDT methods of their choice. It is organized in accordance with the American Society for Nondestructive Testing (ASNT) Recommended Practice No. SNT-TC-1A(2001 Edition). Following the author's logical organization and clear presentation, readers learn both the basic principles and applications for the latest techniques as they apply to a wide range of disciplines that employ NDT, including space shuttle engineering, digital technology, and process control systems. All chapters have been updated and expanded to reflect the development of more advanced NDT instruments and systems with improved monitors, sensors, and software analysis for instant viewing and real-time imaging. Keeping pace with the latest developments and innovations in the field, five new chapters have been added: * Vibration Analysis * Laser Testing Methods * Thermal/Infrared Testing * Holography and Shearography * Overview of Recommended Practice No. SNT-TC-1A, 2001 Each chapter covers recommended practice topics such as basic principles or theory of operation, method advantages and disadvantages, instrument description and use, brief operating and calibrating procedures, and typical examples of flaw detection and interpretation, where applicable. A riveting account of three women who fought shoulder-to-shoulder with men and worked with local women to restore their lives and push back the Taliban They marched under the heat with 40-pound rucksacks on their backs. They fired weapons out of the windows of military vehicles, defending their units in deadly battles. And they did things that their male counterparts could never do—gather intelligence on the Taliban from the women of Afghanistan. As females they could circumvent Muslim traditions and cultivate relationships with Afghan women who were bound by tradition not to speak with American military men. And their work in local villages helped empower Afghan women, providing them with the education and financial tools necessary to rebuild their nation—and the courage to push back against the insurgency that wanted to destroy it. For the women warriors of the military's Female Engagement Teams (FET) it was dangerous, courageous, and sometimes heartbreaking work. Beyond the Call follows the groundbreaking journeys of three women as they first fight military brass and culture and then enemy fire and tradition. And like the men with whom they served, their battles were not over when they returned home. Een eeuw geleden nog moesten de meeste honden werken voor de kost en werden ze gefokt op gezondheid, kracht en aanhankelijkheid. Tegenwoordig wordt er door fokkers meer gelet op uiterlijke kenmerken dan op gezondheid of geschiktheid als huisdier. Bovendien behandelen we honden te vaak als wolven of als harige mensjes. In Dit is de hond ontmaskert John Bradshaw, expert op het gebied van hondgedrag en hondenwelzijn, een groot aantal populaire ideeën over de aard van de hond, zoals de gedachte dat honden willen domineren. Bradshaw maakt duidelijk dat honden absoluut geen gedomesticeerde wolven zijn die willen domineren, maar unieke dieren met een uiterst sociaal gedrag, die het vermogen hebben om harmonisch samen te leven met andere soorten, in het bijzonder de mens. Bradshaw geeft ook belangrijke informatie over de anatomische en

psychologische eigenschappen van de hond, aan de hand waarvan je het welzijn van je hond kunt verbeteren. In Dit is de hond laat Bradshaw helder en overtuigend zien hoe je je kennis van je hond kunt vergroten en hoe je nog beter met hem kunt omgaan. Backpacker brings the outdoors straight to the reader's doorstep, inspiring and enabling them to go more places and enjoy nature more often.
