Take Control of Your Internet Posts: Blog Your Own Way May 23 2020 I create my own Websites using HTML and CSS. I've blogged with WordPress for many years. However, I'm always fighting with it to get things formatted my way. I figured if I created my own blogging system, I wouldn't have to do that. So, I created my Radical Blogging Method. You can use it too. I used HTML for the webpage and CSS for the styling. I also used my very easy-to-use Javascript Library to make my webpage more expressive, and to save me a few steps. This can all be done without any Javascript, if you wish. First, I had to figure out what a blogging system does. Then I had to replicate it, well, at least the important steps. My blogging method uses HTML and CSS, just like my webpages do. So, I just write my posts, like I write my webpages. The theme is the same as the other pages of my website, with a few extra features for the Posts. In addition to the posts, there's a list of all the posts. I made that very simple to maintain. And, there's a Feed. This Feed File tells others sites about your posts and it let's readers subscribe to your post. I've set things up, so that it's easy to maintain this feed file. In this book I explain why I did this, how I did it, and how you can use it too. Then I let you draw your own conclusion. Using my Radical Blogging Method saves me time and makes blogging a joy again.
