Elite Women in Ascendancy Ireland, 1690-1745 Nov 21 2022 The late seventeenth and early eighteenth century was a period of great social and political change within Ireland, as the Protestant Ascendancy gained control of the country, aided by the English government and aristocracy, with whom the ruling class in Ireland mixed through

marriage and travel. The resulting Anglo-Irish elite, with its distinct transnational identity, differed markedly from the preceding Irish elite, but, at the same time, because of its Irish dimension, was very different also from the contemporary English and Scottish upper classes. Women played key roles in this Anglo-Irish elite, and the nature of the Protestant Ascendancy can only be completely understood by considering women's roles fully. This book provides a thorough examination of the role of women in Ascendancy Ireland. It discusses marriage, family and social life; explores women's roles in economic and political life and in charitable

activities; and places Irish elite women of this period in their wider historiographical context. The book is based on extensive original research, including among the papers of aristocratic families in Ireland and Britain, and provides a wealth of detail on elite women's lives in this period. Rachel Wilson completed her doctorate in modern history at Queen's University, Belfast. *Naval Families, War and Duty in Britain, 1740-1820* Jul 17 2022 Provides deep insights into the roles and responsibilities of men, women and children within naval families. *Wimbledon Singles Championships - Complete*

Two Plays by Olga Mukhina Jun 23 2020 Olga Mukhina is one of the most talented, young playwrights in Russia. Born in Moscow in 1970, she has

already garnered enviable praise from critics and audiences throughout Russia and Europe since her first play, *Tanya-Tanya*, was performed in 1996. *Tanya-Tanya* is an atmospheric, poetic tale that observes three couples at a suburban Moscow home who dance, drink champagne, kiss, fall in and out of love, and struggle with dignity and humor to keep some semblance of control over their lives. The parallels with Chekhovian drama are undeniable and clearly intended by the author. *You*, Mukhina's most recent work, is a love poem to her hometown of Moscow as well as a scathing attack on the apathy of people blindly

wrapped up in their own happiness and sorrow.

As Jordan and Rory work together—as they both risk their lives—they learn to trust each other. But they're not the only ones looking for Jordan's birthright, as ruthless

treasure hunters dog Jordan and Aurora's every move. Has Rory finally found someone to love, only to lose him?

Feminism, Literature and Rape Narratives Dec 18 2019

The essays in this volume discuss narrative strategies employed by international writers when dealing with rape and sexual violence, whether in fiction, poetry, memoir, or drama. In developing these new feminist readings of rape narratives, the contributors aim to incorporate arguments about trauma and resistance in order to establish new dimensions of healing. This book makes a vital contribution to the fields of literary studies and feminism, since while other

volumes have focused on retroactive portrayals of rape in literature, to date none has focused entirely on the subversive work that is being done to retheorize sexual violence. Split into four sections, the volume considers sexual violence from a number of different angles. 'Subverting the Story' considers how the characters of the victim and rapist might be subverted in narratives of sexual violence. In 'Metaphors for Resistance,' the essays explore how writers approach the subject of rape obliquely using metaphors to represent their suffering and pain. The controversy of not speaking about sexual violence is the focus of 'The Protest of

Silence,' while 'The Question of the Visual' considers the problems of making sexual violence visible in the poetic image, in film and on stage. These four sections cover an impressive range of world writing which includes curriculum staples like Toni Morrison, Sarah Kane, Sandra Cisneros, Yvonne Vera, and Sharon Olds.

Killing Women Apr 02 2021
The essays in *Killing Women: The Visual Culture of Gender and Violence* find important connections in the ways that women are portrayed in relation to violence, whether they are murder victims or killers. The book's extensive cultural contexts acknowledge

and engage with contemporary theories and practices of identity politics and debates about the ethics and politics of representation itself. Does representation produce or reproduce the conditions of violence? Is representation itself a form of violence? This book adds significant new dimensions to the characterization of gender and violence by discussing nationalism and war, feminist media, and the depiction of violence throughout society.

Women and Ceramics Sep 26 2020 The author examines

some of the great female ceramic traditions such as Pueblo pottery and considers the notable success women have had over the last century. [Diverse Voices in Photographic Albums](#) Apr 21 2020 Through a variety of case studies by global scholars from diverse academic fields, this book explores photographic-album practices of historically marginalized figures from a range of time periods, geographic locations, and socio-cultural contexts. Their albums' stories span various racial, ethnic, gender and sexual identities; nationalities; religions; and dis/abilities. The vernacular albums featured in this volume present narratives

that move beyond those reflected in our existing histories. Essays examine the visual, material, and aural strategies that album-makers have used to assert control over the presentation of their histories and identities, and to direct what those narratives have to say, a point of special relevance as these albums move out of private domestic space and into public archives, institutions, and digital formats. This book does not consider photographic albums and scrapbooks as separate genres, but as a continuum of modern creative practices of photographic and mass-print collage aimed at self-expression and narrative-

building that co-evolved and were readily accessible. The book will be of interest to scholars working in art history, history of photography, visual culture, material culture, media studies, and cultural studies. [Pediatric Ethics](#) Feb 24 2023 This book examines the many ethical issues related to health and health care in children. It describes the field of Pediatric ethics, a unique and important aspect of the discipline of bioethics, the study of moral conduct in health care and the rational process for determining the best course of action in the face of conflicting choices. The book begins with an exploration of what it means to be a child in America and

the unique kinship relationships and obligations engendered by the decision of parents to have a child, and it examines ethical principles and professional obligations related to the care of children. Each of the chapters in the book focuses on important ethical concerns. It begins with ethical issues in creating babies using reproductive technologies, and then continues with an analysis of the ethical issues in labor and delivery of a child. The book continues with an in depth analysis of the many hard choices faced by families and clinicians in the care of critically ill neonates, and then goes on to describe current controversies in caring for

older children who are dying and their families, as well as ethical issues concerning adolescents, research ethics as it relates to children, issues concerning genetic testing, screening and biobanking, and surgical and medical enhancement of children. Each chapter has case examples to illustrate the real life concerns of patients, families and clinicians. The book is intended for students in pediatrics and ethics, as well as for practicing clinicians, and interested families.

How to Be Childless Feb 12 2022 In *How to Be Childless: A History and Philosophy of Life Without Children*, Rachel Chrastil explores the long and fascinating history of childlessness, putting this often-overlooked legacy in conversation with the issues that childless women and men face in the twenty-first century. Eschewing two dominant narratives, that the childless are either barren and alone, or that they are carefree and selfish, *How to Be Childless*

instead argues that the lives of childless individuals from the past can help all of us expand our range of possibilities for the good life. In uncovering the voices and experiences of childless women from the past five hundred years, Chrastil demonstrates that the pathways to childlessness, so often simplified as "choice" and "circumstance," are far more complex and interweaving. Balanced, deeply researched, and richly realized, *How to be Childless* will empower readers, parents and childless alike, to navigate their lives with purpose.

The Parent App Dec 30 2020
Ninety-five percent of

American kids have Internet access by age 11; the average number of texts a teenager sends each month is well over 3,000. More families report that technology makes life with children more challenging, not less, as parents today struggle with questions previous generations never faced: Is my thirteen-year-old responsible enough for a Facebook page? What will happen if I give my nine year-old a cell phone? In *The Parent App*, Lynn Schofield Clark provides what families have been sorely lacking: smart, sensitive, and effective strategies for coping with the dilemmas of digital and mobile media in modern life. Clark set about interviewing scores of

mothers and fathers, identifying not only their various approaches, but how they differ according to family income. Parents in upper-income families encourage their children to use media to enhance their education and self-development and to avoid use that might distract them from goals of high achievement. Lower income families, in contrast, encourage the use of digital and mobile media in ways that are respectful, compliant toward parents, and family-focused. Each approach has its own benefits and drawbacks, and whatever the parenting style or economic bracket, parents experience anxiety about how

to manage new technology. With the understanding of a parent of teens and the rigor of a social scientist, Clark tackles a host of issues, such as family communication, online predators, cyber bullying, sexting, gamer drop-outs, helicopter parenting, technological monitoring, the effectiveness of strict controls, and much more. *The Parent App* is more than an advice manual. As Clark admits, technology changes too rapidly for that. Rather, she puts parenting in context, exploring the meaning of media challenges and the consequences of our responses for our lives as family members and as members of society.

Contemporary Black and Asian Women Playwrights in Britain Aug 18 2022 This text was the first monograph to document and analyse the plays written by Black and Asian women in Britain. The volume explores how Black and Asian women playwrights theatricalize their experiences of migration,

displacement, identity, racism and sexism in Britain. Plays by writers such as Tanika Gupta, Winsome Pinnock, Maya Chowdhry and Amrit Wilson, among others - many of whom have had their work produced at key British theatre sites - are discussed in some detail. Other playwrights' work is also briefly explored to suggest the range and scope of contemporary plays. The volume analyses concerns such as geographies of un/belonging, reverse migration (in the form of tourism), exploitation, arranged marriages, the racialization of sexuality, and asylum seeking as they emerge in the plays, and argues that Black and Asian women

playwrights have become constitutive subjects of British theatre.

As I wept in the arms of darkness, I heard the voice of my grandmother say, Nothing stays the same, darling, not even pain. Life is a path of change. Of ecstasy and ache. So, no matter what the storm claims, let love light the way.

Transitional Justice and the 'Disappeared' of Northern Ireland Sep 07 2021 This book employs a transitional justice lens to address the 'disappearances' that occurred during the Northern Ireland conflict - or 'Troubles' - and the post-conflict response to these 'disappearances.' Despite an extensive literature around 'dealing with the past' in

Northern Ireland, as well as a substantial body of scholarship on 'disappearances' in other national contexts, there has been little scholarly scrutiny of 'disappearances' in post-conflict Northern Ireland. Although the Good Friday Agreement brought relative peace to Northern Ireland, no provision was made for the establishment of some form of overarching truth and reconciliation commission aimed at comprehensively addressing the legacy of violence. Nevertheless, a mechanism to recover the remains of the 'disappeared' - the Independent Commission for the Location of Victims' Remains (ICLVR) - was

established, and has in fact proven to be quite effective. As a result, the reactions of key constituencies to the 'disappearances' can be used as a prism through which to comprehensively explore issues of relevance to transitional justice scholars and practitioners. Pursuing an interdisciplinary approach, and based on extensive empirical research, this book provides a multifaceted exploration of the responses of these constituencies to the practice of 'disappearing.' It engages with transitional justice themes including silence, memory, truth, acknowledgement, and apology. Key issues examined include the mobilisation efforts

of families of the 'disappeared,' efforts by a (former) non-state armed group to address its legacy of violence, the utility of a limited immunity mechanism to incentivise information provision, and the interplay between silence and memory in the shaping of a collective, societal understanding of the 'disappeared.'

Bungalow 2 Jul 25 2020 As she checked into the lush Beverly Hills Hotel, Tanya Harris dreaded being away from her husband, Peter, and three teenaged children. Dressed as pure Marin County mom among supermodels and movie stars, Tanya was here to do a major screenplay after years of writing stories and

articles on the side, always putting her family first. And when Tanya steps into her temporary home, she is amazed at what she finds: lilies, orchids and roses. A pink marble tub. Her favorite chocolates, a cashmere robe, and slippers that fit perfectly. Things are going to be different in Bungalow 2. From her first day on the set, Tanya is thrust into an intoxicating new world, where friendships and romances come and go . . . and where she feels reborn, energized by the creativity and genius swirling around her. Suddenly she's working alongside A-list actors and a Hollywood legend: Oscar-winning producer Douglas

Wayne, a man who always gets what he wants - and seems to have his sights set on her. Flying back to Marin County between shoots, struggling to reconnect with a family that seems to need her less and less, Tanya watches helplessly as her old life is pulled out from under her in the most crushing of ways. As her two lives collide, as one Award-winning film leads to another, Tanya begins to wonder if she can be a wife, a mother and a writer at the same time. And just as she confronts the toughest choice she has faced, she is offered another dazzling opportunity - one that could recast her story in the most amazing of ways, complete

with an ending she never could have written herself. In *Bungalow 2*, Danielle Steel takes us into a world few ever see - a world of fame and fortune, celebrity and genius - daring to show us the real lives, real dreams, and real struggles hidden beneath the flash and glitter of Hollywood.

The Motherhood Penalty Sep 19 2022 AN EYE-OPENING EXPLORATION OF MODERN MOTHERHOOD PACKED WITH PRACTICAL ADVICE ON NAVIGATING DISCRIMINATION IN THE WORKPLACE 'It's the book that proves working mothers are shamefully mistreated' - Daily Mail 'Brearley's book leaves no stone unturned in what needs to be done to remedy these problems going forward' - Vogue UK 'Joeli is one of the most tenacious and

impressive campaigners I know, and her work has had a massive positive impact on the lives of thousands of women. Her work is invaluable, from setting up a vital lifeline for women to learn about their rights on maternity discrimination, to the frontlines of the Covid-19 crisis, where she battled for women not to be left out of the picture altogether.' - Laura Bates Imagine suddenly being sacked from your job. After spending years building your career, it's all taken away in just one moment. Why? Because you told your boss you are pregnant. This happened to Joeli Brearley. And she quickly realised she wasn't alone -

54,000 women a year are forced out of their job because they dared to procreate, and three quarters of working mothers face workplace discrimination. And this was before the pandemic, with its never-ending cycle of extraordinary childcare challenges and overt pregnancy and maternity discrimination, resulting in a tsunami of mothers exiting the labour force. *Pregnant Then Screwed* is an expose of the unscrupulous work practices and antiquated systems that we've been conditioned to accept and a toolkit for how to challenge them. It's full of practical advice to help you navigate systemic barriers

when they slap you in the face. Whether you're a mother who is sick of being sidelined, undermined, and underpaid. A "stay at home" mother who wants to work but can't. A future parent who is scared that having children will affect your career. An employer who wants to get the best out of its parent employees, or you simply want a stronger, fairer economy, *Pregnant Then Screwed* is a compelling manifesto for change and a call to arms for all women.

Opposing Colonialism, Antisemitism, and Turbonationalism Nov 28 2020 This volume gathers together reflections on racism and nationalism, empowerment and

futurity. It focuses on collective amnesia in regards to traumatic events of the European past and the ways in which memory and history are presented for the future. The essays cover and oppose the seemingly disparate genocides committed during Belgian colonialism, Austrian antisemitism and turbonationalism in "Republika Srpska" (Bosnia and Herzegovina), implying by no means a homogenization of the experiences. What connects these historical situations is the fact that, despite available documents, to this very day, nation-states are built on practices of oblivion regarding their past. This volume is

indispensable for theoreticians, philosophers, and historians, as well as the general public. It expresses the demand to critically question our inherited knowledge and to rethink the past for a new future of conviviality.

Women on Their Own

Oct 20 2022 Despite what would seem some apparent likenesses, single men and single women are perceived in very different ways. Bachelors are rarely considered lonely or aberrant. They are not pitied. Rather, they are seen as having chosen to be footloose and fancy free

to have sports cars, boats, and enjoy a series of unrestrictive relationships. Single women, however, do not enjoy such an esteemed reputation. Instead they have been viewed as abnormal, neurotic, or simply undesirable-attitudes that result in part from the long-standing belief that single women would not have chosen her life. Even the single career-woman is seldom viewed as enjoying the success she has achieved. No one believes she is truly fulfilled. Modern American culture has raised generations of women who believed that their true and most important role in society was to get married and have children. Anything short of this

role was considered abnormal, unfulfilling, and suspect. This female stereotype has been exploited and perpetuated by some key films in the late 40's and early 50's. But more recently we have seen a shift in the cultural view of the spinster. The erosion of the traditional nuclear family, as well as a larger range of acceptable life choices, has caused our perceptions of unmarried women to change. The film industry has reflected this shift with updated stereotypes that depict this cultural trend. The shift in the way we perceive spinsters is the subject of current academic research which shows that a person's perception of

particular societal roles influences the amount of stress or depression they experience when in that specific role. Further, although the way our culture perceives spinsters and the way the film industry portrays them may be evolving, we still are still left with a negative stereotype. Themes of choice and power have informed the lives of single women in all times and places. When considered at all in a scholarly context, single women have often been portrayed as victims, unhappily subjected to forces beyond their control. This collection of essays about women on their own attempts to correct that bias, by presenting a more

complex view of single women in nineteenth- and twentieth-century United States and Europe. Topics covered in this book include the complex and ambiguous roles that society assigns to widows, and the greater social and financial independence that widows have often enjoyed; widow culture after major wars; the plight of homeless, middle-class single women during the Great Depression; and comparative sociological studies of contemporary single women in the United States, Britain, Ireland, and Cuba. Composed of papers presented to the Rutgers Center for Historical Analysis project on single women, this collection

incorporates the work of specialists in anthropology, art history, history, and sociology. It is deeply connected with the

emerging field of singleness studies (to which the RCHA has contributed an Internet-based

bibliography of more than 800 items). All of the essays are new and have not been previously published.
